

Product Data Sheet

Blue and Green Tinted Glasses

Aesthetic Description

Architects have relied on blue and green tinted glasses for decades to give buildings a distinctive look and to reduce heat gain and glare. Vitro Architectural Glass (formerly PPG glass) offers a collection of blue and green tints that can be paired with its exceptional range of advanced low-e and reflective coatings to offer architects more performance and aesthetic options than ever.

In addition to light-green *Solexia®* glass, which has been an industry mainstay since the 1930s, Vitro's color palette includes aqua-blue *Azuria®* glass, emerald-green *Atlantica®* glass, sky-blue *Solarblue®* glass and rich-blue *Pacifica®* glass. Using these tints with reflective *Solarcool®* and subtly-reflective *Vistacool®* glass coatings further multiplies the color selection.

Performance Characteristics

Blue and green tinted glasses are available with *Solarban®* solar control, low-e glasses or combined in an insulating glass unit (IGU) with *Sungate®* passive low-e glasses to fulfill a wide range of performance demands. reflective, color-enhanced glass (see performance data on back page).

Fabrication and Availability

Blue and green tinted glasses, provide maximum processing flexibility and can be laminated, tempered or heat-strengthened to satisfy increased strength or safety glazing requirements. Vitro tinted glasses are available from hundreds of Vitro-qualified glass fabricators in the U.S., Canada and throughout the world. Tinted glasses with *Solarban®* glasses are available through the Vitro Certified™ Network.

Additional Resources

To obtain samples of any Vitro Glass product, call 1-855-VTROGLS (877-6457) or visit samples.vitroglazings.com. For videos, design insights and technical education, visit the Vitro Glass Education Center at glassed.vitroglazings.com. For glass comparison and configuration tools, visit tools.vitroglazings.com.

Omni Dallas Convention Center Hotel

Location: Dallas, TX | **Products:** *Pacifica®*, *Solarban® z50*, *Solarban® 70* Glasses
Architect: BOKA Powell Architects; 5GStudio | **Glass Fabricator:** JE Berkowitz, LP |
Owner/Developer: City of Dallas/Matthews Southwest

Vitro Architectural Glass is the first U.S. float glass manufacturer to have its products recognized by the *Cradle to Cradle Certified™* program, and offers more C2C-certified architectural glasses than any other float glass manufacturer.

Insulating Glass Unit Performance Comparisons | Monolithic (6mm)

Glass Type	Visible Light Transmittance (VLT) %	Visible Light Reflectance		(BTU/hr·ft²°F) NFRC U-Value		Solar Heat Gain Coefficient (SHGC)	Light to Solar Gain (LSG)
		Exterior %	Interior %	Winter Nighttime	Winter Argon		
<i>Pacifica®</i> Glass	42	5	5	1.02	na	0.49	0.86
<i>Solarblue®</i> Glass	56	6	6	1.02	na	0.61	0.92
<i>Azuria®</i> Glass	68	7	7	1.02	na	0.52	1.31
<i>Solexia®</i> Glass	77	8	8	1.02	na	0.62	1.24
<i>Atlantica®</i> Glass	67	7	7	1.02	na	0.53	1.26
