Section 1. Identification

Product name: Non-Coated Float Glass
Product code: 01048
Other means of identification: This SDS covers all Vitro uncoated glass products including, but not limited to: Glass (Soda-Lime), Clear, Acuity™, Starphire®, Solarhine™, Solarhine™ PV, Solarbronze®, Solargray®, Atlantis™ (Solorgreen®), Solexia™ (Solex®), Graylite®, Optigray®, Optiblue™, Optibronze™, Azuria™ (Azurlite®), Caribia™, GL-20™, GL-35™, Solextra®, Solextra® Privacy, Vistagray™, Herculite®, Airphire™ and Pavia™.

Product type: Article

Relevant identified uses of the substance or mixture and uses advised against

Product use: Glass.
Use of the substance/mixture: Construction of residential and non-residential buildings
Uses advised against: None identified.

Manufacturer: Vitro Flat Glass LLC (Vitro)
400 Guys Run Road
Cheswick, PA 15024

Emergency telephone number: 1-866-290-7653

Technical Phone Number: 1-855-887-6457 (9:00 AM through 4:00 PM EST)

Section 2. Hazards identification

OSHA/HCS status: This product is considered an article. The end use is dependent upon the manufactured shape and design, and this article will not pose an exposure hazard under normal conditions. Sanding and grinding this article can generate nuisance dust particles. Sanding and grinding dusts May be irritating to eyes and respiratory system.

Classification of the substance or mixture: Not classified.

GHS label elements
Signal word: No signal word.
Hazard statements: No known significant effects or critical hazards.
Precautionary statements
Prevention: Not applicable.
Response: Not applicable.
Section 2. Hazards identification

Storage: Not applicable.
Disposal: Not applicable.
Supplemental label elements: None known.
Hazards not otherwise classified: None known.

Section 3. Composition/information on ingredients

Composition consisting primarily of oxides of silicon with lesser quantities of other selected oxides common to soda-lime glasses, fused into an amorphous vitreous state.

Note: Glass sheets are typically stacked for shipment and may be separated with less than 1 weight percent of powdered interleaving material consisting of organic acid coated polymeric beads. Exposure to these polymeric beads is not expected to be a concern. Glass surface may also be coated with a solution of a mild organic acid. The dried residue on the glass is less than 1% by weight. In handling the glass, exposure to the mild organic acid is not expected to be a concern. The only potential impact may be on the pH of the waste water effluent after glass washing to remove the residue and interleaving.

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

Description of necessary first aid measures

- **Eye contact**: (Sanding and grinding dusts) In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Check for and remove any contact lenses.
- **Inhalation**: None known.
- **Skin contact**: None known.
- **Ingestion**: Not a likely route of exposure.
Section 4. First aid measures

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation.

Inhalation : (Sanding and grinding dusts) May cause slight transient irritation.

Skin contact : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation.

Ingestion : Not a likely route of exposure.

Over-exposure signs/symptoms

Eye contact : No specific data.

Inhalation : No specific data.

Skin contact : No specific data.

Ingestion : No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : Treat symptomatically.

Specific treatments : No specific treatment.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media : Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media : None known.

Specific hazards arising from the chemical

Hazardous thermal decomposition products : No specific data.

Special protective actions for fire-fighters : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : No special protection is required.
Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

For emergency responders

Environmental precautions

Methods and materials for containment and cleaning up

Small spill

Large spill

Reference to other sections

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

Section 7. Handling and storage

Precautions for safe handling

Protective measures

Advice on general occupational hygiene

Conditions for safe storage, including any incompatibilities

Put on appropriate personal protective equipment (see Section 8). Take care with items that are sharp or heavy. Any glass can have sharp edges, particularly at a cut or fractured edge. Normal strength glass, also known as annealed or float glass, is known to fracture into large sections with sharp edges. Chemically strengthened or chemically tempered glass and thermally heat-strengthened glass will tend to fracture much the same as normal strength annealed glass, and are not considered safety glazing products. Thermally tempered glass (commonly known as fully tempered glass or safety glazing) will fracture into many smaller pieces still capable of cutting skin, but typically not as severely as would larger fragments from normal strength annealed glass. These safety concerns should be addressed with proper personal protective equipment to protect oneself against any sharp edges, including those formed by accidental glass fracture during handling. Sanding (a.k.a. seaming or edging) any sharp glass edges to produce rounded edges also reduces the hazards with being cut by sharp edges.

Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Store in a dry place away from excessive moisture and exhaust fumes from fork trucks or other such equipment. Support glass in cases on both sides when stored vertically. Glass packs and open cases should be stored at a 5° lean angle to prevent glass from falling forward.
Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Key to abbreviations

A = Acceptable Maximum Peak
ACGIH = American Conference of Governmental Industrial Hygienists.
C = Ceiling Limit
F = Fume
IPEL = Internal Permissible Exposure Limit
OSHA = Occupational Safety and Health Administration.
R = Respirable
S = Potential skin absorption
SR = Respiratory sensitization
SS = Skin sensitization
STEL = Short term Exposure limit values
TD = Total dust
TLV = Threshold Limit Value
TWA = Time Weighted Average

Consult local authorities for acceptable exposure limits.

Recommended monitoring procedures

Not applicable.

Appropriate engineering controls

Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls

Not applicable

Individual protection measures

Hygiene measures

Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

Safety glasses with side shields.

Skin protection

Rubber dipped anti-lacerative gloves are recommended.

Body protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

(Sanding and grinding dusts) If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Section 9. Physical and chemical properties

**Appearance**

- **Physical state**: Solid.
- **Color**: Clear to tinted
- **Odor**: Odorless.
- **Odor threshold**: Not applicable.
- **pH**: Not applicable.
- **Melting point**: 685 to 740°C (1265 to 1364°F) (softening point)
- **Boiling point**: Not applicable.
- **Flash point**: Closed cup: Not applicable. [Product does not sustain combustion.]
- **Auto-ignition temperature**: Not applicable
- **Decomposition temperature**: Not applicable.
- **Flammability (solid, gas)**: Not applicable.
- **Lower and upper explosive (flammable) limits**: Not applicable.
- **Evaporation rate**: Not applicable.
- **Vapor pressure**: Not applicable.
- **Vapor density**: Not applicable.
- **Relative density**: 2.45
- **Density (lbs / gal)**: 20.45
- **Solubility**: Insoluble in the following materials: cold water.
- **Partition coefficient: n-octanol/water**: Not applicable.
- **Viscosity**: Not Applicable
- **Volatility**: 0% (v/v), 0% (w/w)
- **% Solid. (w/w)**: 100

Section 10. Stability and reactivity

**Reactivity**: No specific test data related to reactivity available for this product or its ingredients.

**Chemical stability**: The product is stable.

**Possibility of hazardous reactions**: Not applicable.

**Conditions to avoid**: No specific data.

Refer to protective measures listed in sections 7 and 8.

**Incompatible materials**: No specific data.

**Hazardous decomposition products**: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Section 11. Toxicological information

Information on toxicological effects

Acute toxicity
Conclusion/Summary: No known significant effects or critical hazards.

Irritation/Corrosion

Conclusion/Summary
Skin: No known significant effects or critical hazards.
Eyes: No known significant effects or critical hazards.
Respiratory: No known significant effects or critical hazards.

Sensitization
Conclusion/Summary
Skin: No known significant effects or critical hazards.
Respiratory: No known significant effects or critical hazards.

Mutagenicity
Conclusion/Summary: No known significant effects or critical hazards.

Carcinogenicity
Conclusion/Summary: No known significant effects or critical hazards.

Reproductive toxicity
Conclusion/Summary: No known significant effects or critical hazards.

Teratogenicity
Conclusion/Summary: No known significant effects or critical hazards.

Specific target organ toxicity (single exposure)
Not available.

Specific target organ toxicity (repeated exposure)
Not available.

Target organs
Contains material which may cause damage to the following organs: upper respiratory tract, skin, eyes. (Sanding and grinding dusts)

Aspiration hazard
Not available.

Information on the likely routes of exposure

Potential acute health effects
Eye contact: (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation.
Inhalation: (Sanding and grinding dusts) May cause slight transient irritation.
Skin contact: (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation.
Ingestion: Not a likely route of exposure.

Over-exposure signs/symptoms
Eye contact: No specific data.
Inhalation: No specific data.
Skin contact: No specific data.
Ingestion: No specific data.
Section 11. Toxicological information

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Conclusion/Summary** : Not applicable.

**Short term exposure**
- **Potential immediate effects** : No known significant effects or critical hazards.
- **Potential delayed effects** : No known significant effects or critical hazards.

**Long term exposure**
- **Potential immediate effects** : No known significant effects or critical hazards.
- **Potential delayed effects** : No known significant effects or critical hazards.

**Potential chronic health effects**
- **General** : No known significant effects or critical hazards.
- **Carcinogenicity** : No known significant effects or critical hazards.
- **Mutagenicity** : No known significant effects or critical hazards.
- **Teratogenicity** : No known significant effects or critical hazards.
- **Developmental effects** : No known significant effects or critical hazards.
- **Fertility effects** : No known significant effects or critical hazards.

Section 12. Ecological information

**Toxicity**
Not available.

**Persistence and degradability**
Not available.

**Bioaccumulative potential**
Not available.

**Mobility in soil**
- **Soil/water partition coefficient (K_{oc})** : Not available.

Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Disposal should be in accordance with applicable regional, national and local laws and regulations.
Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

**Special precautions for user** : -

Section 15. Regulatory information

**United States**

**United States inventory (TSCA 8b)** : All components are listed or exempted.

**U.S. Federal regulations**

SARA 302/304

SARA 304 RQ : Not applicable.

**Composition/information on ingredients**

No products were found.

SARA 311/312

**Classification** : Not applicable.

**Composition/information on ingredients**

No products were found.

Section 16. Other information

**Hazardous Material Information System (U.S.A.)**

**Health** : 0
**Flammability** : 0
**Physical hazards** : 0

(*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.
Section 16. Other information

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

National Fire Protection Association (U.S.A.)
