SAFETY DATA SHEET

Date of issue/Date of revision

: 27 April 2016

Version

: 1

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier | |
|-------------------------------|--|
| Product name | : Magnetic Sputter/Vacuum Deposition (MSVD) Coated Float Glass |
| Product code | : 01050 |
| EC number | : Not available. |
| CAS number | : Not available. |
| Product type | : Article |
| Other means of identification | This (M)SDS covers all PPG MSVD Low-E coated glass products including, but not limited to: Sungate® 400, Sungate® 400VT, Sungate® 460, Sungate® 460VT, Solarban® z50, Solarban® z50VT, Solarban® 60, Solarban® 60VTII, Solarban® 67, Solarban® 67VT, Solarban® 70XL, Solarban® 70XLVT, Solarban® 72VT, Solarban® R100VT, Solarban® z75, Solarban® z75VT, Solarban® 90, Solarban® 90VT, Solarphire™ HVM. |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses | | | |
|--|---------------|--------|--|
| Construction materials (building materials) - Other construction materials | | | |
| Uses adv | vised against | Reason | |
| None identified. | | | |
| Product use : | Glass. | | |

1.3 Details of the supplier of the safety data sheet

Sigma Paint Saudi Arabia Ltd. PO Box 7509, Dammam 31472 Saudi Arabia Tel: 00966 38 47 31 00 Fax: 00966 38 47 17 34

PPG Industries, Inc. One PPG Place Pittsburgh PA 15272 USA

e-mail address of person : PS.ACEMEA@ppg.com responsible for this SDS

| 1.4 Emergency telephone number | : +966 1 2759222 |
|--------------------------------|------------------|
| | +1 412 434 4515 |

| Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II | | | | |
|---|---|--|--|--|
| Code : 01050 | Date of issue/Date of revision : 27 April 2016 | | | |
| Magnetic Sputter/Vacuum Depo | osition (MSVD) Coated Float Glass | | | |
| SECTION 2: Hazards | identification | | | |
| 2.1 Classification of the subs | tance or mixture | | | |
| Product definition | This product is considered an article. The end use is dependent upon the manufactured shape and design, and this article will not pose an exposure hazard under normal conditions. Sanding and grinding this article can generate nuisance dust particles. Sanding and grinding dusts May be irritating to eyes and respiratory system. | | | |
| Classification according to I Not classified. | Regulation (EC) No. 1272/2008 [CLP/GHS] | | | |
| The product is not classified a | s hazardous according to Regulation (EC) 1272/2008 as amended. | | | |
| See Section 16 for the full text | of the H statements declared above. | | | |
| See Section 11 for more detail | led information on health effects and symptoms. | | | |
| 2.2 Label elements | | | | |
| Signal word | : No signal word. | | | |
| Hazard statements | : No known significant effects or critical hazards. | | | |
| Precautionary statements | 5 | | | |
| Prevention | : Not applicable. | | | |
| Response | : Not applicable. | | | |
| Storage | : Not applicable. | | | |
| Disposal | : Not applicable. | | | |
| Supplemental label elements | : Safety data sheet available on request. | | | |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Not applicable. | | | |
| Special packaging requirem | <u>ents</u> | | | |
| Containers to be fitted with child-resistant fastenings | : Not applicable. | | | |
| Tactile warning of danger | : Not applicable. | | | |
| 2.3 Other hazards | | | | |
| Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII | : Not available. | | | |
| Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII | : Not available. | | | |
| Other hazards which do not result in classification | : None known. | | | |

| Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II | | | | |
|--|---------|--------------------------------|-----------------|--|
| Code | : 01050 | Date of issue/Date of revision | : 27 April 2016 | |
| Magnetic Sputter/Vacuum Deposition (MSVD) Coated Float Glass | | | | |

SECTION 3: Composition/information on ingredients

| 3.1 Substances | : | This product is considered an article. The end use is dependent upon the manufactured shape and design, and this article will not pose an exposure hazard under normal conditions. Sanding and grinding this article can generate nuisance dust particles. Sanding and grinding dusts May be irritating to eyes and respiratory system. |
|----------------|---|---|
|----------------|---|---|

| Product/ingredient name | Identifiers | % by weight | <u>Classification</u> Regulation (EC) No. 1272/2008 [CLP] | Туре |
|-------------------------|----------------------------------|-------------|---|------|
| glass, oxide, chemicals | EC: 266-046-0 CAS: 65997-17-3 | 50 - 100 | Not classified. | [A] |

See Section 16 for the full text of the H statements declared above.

Composition consisting primarily of oxides of silicon with lesser quantities of other selected oxides common to soda-lime glasses, fused into an amorphous vitreous state.

Note: Glass sheets are typically stacked for shipment and may be separated with less than 1 weight percent of powdered interleaving material consisting of polymeric beads. Exposure to these polymeric beads is not expected to be a concern. MSVD glass may contain TPO (Temporary Protective Overcoat) made of polyvinyl alcohol. TPO is applied only to VT product versions. Exposure to polyvinyl alcohol is not expected to be a concern.

These coated glass products contain less than 0.1% of the following intentionally added metals (specific metals depend on product): silver, tin, zinc, nickel, chromium, aluminum, titanium and/or iron. Activities that generate dust from these coated glass products should be evaluated to determine if any regulatory exposure limits are exceeded. If exposure limits are exceeded for dust/metal, appropriate engineering controls (e.g., ventilation/HEPA filters) and/or personal protective equipment (e.g., respirators) should be provided.

[C] Stabilising additive

SUB codes represent substances without registered CAS Numbers.

SECTION 4: First aid measures

| 4.1 Description of first aid m | neasures |
|--------------------------------|--|
| Eye contact | : (Sanding and grinding dusts) In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Check for and remove any contact lenses. |
| Inhalation | : None known. |
| Skin contact | : None known. |
| Ingestion | : Not a likely route of exposure. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects

| Eye contact | : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation. |
|---------------------|--|
| Inhalation | : (Sanding and grinding dusts) May cause slight transient irritation. |
| Skin contact | : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation. |
| Ingestion | : Not a likely route of exposure. |
| Over-exposure signs | /symptoms |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| | |

| Conforms to Regulation (EC) | No. 1907/2006 (REACH), Annex II |
|---|---|
| Code : 01050 | Date of issue/Date of revision : 27 April 2016 |
| Magnetic Sputter/Vacuum Dep | position (MSVD) Coated Float Glass |
| SECTION 4: First aid | t measures |
| Ingestion | : No specific data. |
| 4.3 Indication of any immedia | ate medical attention and special treatment needed |
| Notes to physician | : Treat symptomatically. |
| Specific treatments | : No specific treatment. |
| SECTION 5: Firefigh | ting measures |
| 5.1 Extinguishing media | |
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |
| 5.2 Special hazards arising f | rom the substance or mixture |
| Hazards from the substance or mixture | : No specific fire or explosion hazard. |
| Hazardous combustion products | : No specific data. |
| 5.3 Advice for firefighters | |
| Special precautions for fire fighters | - : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : No special protection is required. |
| OFOTION A AUSTI | |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | stective equipment and emergency procedures |
|--------------------------------|--|
| For non-emergency personnel | : No special protection is required. |
| For emergency responders | : No special protection is required. |
| 6.2 Environmental precautions | : No specific hazard. |
| 6.3 Methods and material for | containment and cleaning up |
| Small spill | : Vacuum or sweep up material and place in a designated, labelled waste container. |
| Large spill | : Vacuum or sweep up material and place in a designated, labelled waste container. |
| 6.4 Reference to other | : See Section 1 for emergency contact information. |

sections See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II | | | | | |
|--|---------|--------------------------------|-----------------|--|--|
| Code | : 01050 | Date of issue/Date of revision | : 27 April 2016 | | |
| Magnetic Sputter/Vacuum Deposition (MSVD) Coated Float Glass | | | | | |

SECTION 7: Handling and storage

| Protective measures | : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Take care with items that are sharp or heavy. Any glass can have sharp edges, particularly at a cut or fractured edge. Normal strength glass, also known as annealed or float glass, is known to fracture into large sections with sharp edges. Chemically strengthened or chemically tempered glass will tend to fracture much the same as normal strength glass. Thermally tempered glass (commonly found in automotive side and rear windows) will fracture into a large number of very small pieces capable of cutting skin, but typically not as deep as would a large sharp fragment of normal strength glass. These safety concerns should be addressed with proper personal protective equipment to protect oneself against any sharp edges, including those formed by accidental glass fracture during handling. Sanding (a.k.a. seaming or edging) any sharp glass edges to produce rounded edges also reduces the hazards with being cut by sharp edges |
|--|--|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| 7.2 Conditions for safe storage, including any incompatibilities | : Store in a dry place away from excessive moisture and exhaust fumes from fork trucks or other such equipment. Support glass in cases on both sides when stored vertically. Glass packs and open cases should be stored at a 5° lean angle to prevent glass from falling forward. |
| 7.3 Specific end use(s) | |
| Recommendations | : Building and construction work |
| Industrial sector specific solutions | : Industrial and Professional use |

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

8.1 Control parameters

| | English (GB) | Saudi Arabia | 5/11 |
|-----------------------------------|--|--|---|
| Recommended monitoring procedures | If this product contains ingredients with exatmosphere or biological monitoring may of the ventilation or other control measure protective equipment. | Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II | | |
|---|---|--|
| Code : 01050 | Date of issue/Date of revision : 27 April 2016 | |
| Magnetic Sputter/Vacuum De | position (MSVD) Coated Float Glass | |
| SECTION 8: Exposu | ire controls/personal protection | |
| 8.2 Exposure controls | | |
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. When grinding for removal of the MSVD coating, inhalation of silver containing coating dust should be prevented by using a localized exhaust ventilation system to remove the silver particulate being removed. The ventilation system should be equipped with a HEPA (High Efficiency Particulate Air) filter with efficiency greater | |

Individual protection measures

| Hygiene measures | Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. | d |
|---------------------------------|--|-------|
| Eye/face protection | Safety glasses with side shields. | |
| Skin protection | | |
| Hand protection | Chemical-resistant, impervious gloves complying with an approved standard sl be worn at all times when handling chemical products if a risk assessment indi this is necessary. | |
| Gloves | Rubber dipped anti-lacerative gloves are recommended. | |
| Body protection | Personal protective equipment for the body should be selected based on the tabeing performed and the risks involved and should be approved by a specialist before handling this product. | |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should approved by a specialist before handling this product. | be |
| Respiratory protection | (Sanding and grinding dusts) If workers are exposed to concentrations above exposure limit, they must use appropriate, certified respirators. Respirator selemust be based on known or anticipated exposure levels, the hazards of the pro- and the safe working limits of the selected respirator. | ction |
| Environmental exposure controls | Not applicable. | |

SECTION 9: Physical and chemical properties

than 99.9%.

| 9.1 Information on basic physical | and chemical properties |
|---|--|
| Appearance | |
| Physical state | : Solid. |
| Colour | : Clear./Colourless. to tinted |
| Odour | : Odourless. |
| Odour threshold | : Not applicable. |
| рН | : Not applicable. |
| Melting point/freezing point | : Not available. |
| Initial boiling point and boiling range | : Not available. |
| Flash point | : Closed cup: Not applicable. [Product does not sustain combustion.] |
| Evaporation rate | : Not applicable. |
| Material supports combustion. | : No. |
| Flammability (solid, gas) | : Not applicable |
| Upper/lower flammability or explosive limits | : Not applicable. |
| Relative density | : 2.45 |

| Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II | | | | |

| Magnetic Sputter/Vacuum Depe | osition (MSVD) Coated Float Glass |
| SECTION 11: Toxico | ogical information |
| Aspiration hazard Not available. | |
| Information on likely routes of exposure | : Not available. |
| Potential acute health effect | <u>s</u> |
| Inhalation | : (Sanding and grinding dusts) May cause slight transient irritation. |
| Ingestion | : Not a likely route of exposure. |
| Skin contact | : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation. |
| Eye contact | : (Sanding and grinding dusts) No significant irritation expected other than possible mechanical irritation. |
| Symptoms related to the ph | vsical, chemical and toxicological characteristics |
| Inhalation | : No specific data. |
| Ingestion | : No specific data. |
| Skin contact | : No specific data. |
| Eye contact | : No specific data. |
| Delayed and immediate effe | cts as well as chronic effects from short and long-term exposure |
| Short term exposure | |
| Potential immediate effects | : Not available. |
| Potential delayed effects Long term exposure | : Not available. |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Potential chronic health effe Not available. | |
| Conclusion/Summary | : Not applicable. |
| General | : No known significant effects or critical hazards. |
| Carcinogenicity | : No known significant effects or critical hazards. |
| Mutagenicity | : No known significant effects or critical hazards. |
| Teratogenicity | : No known significant effects or critical hazards. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects | : No known significant effects or critical hazards. |
| Other information | : Not available. |
| | |

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

SECTION 12: Ecological information

| 12.1 Toxicity | |
|--------------------|------------------|
| Conclusion/Summary | : Not available. |

12.2 Persistence and degradability

Conclusion/Summary : Not available.

12.3 Bioaccumulative potential

Not available.

SECTION 12: Ecological information

| 12.4 Mobility in soil | |
|--|---|
| Soil/water partition coefficient (Koc) | : Not available. |
| Mobility | : Not available. |
| 12.5 Results of PBT and vPv | B assessment |
| PBT | : Not available. |
| | P: Not available. B: Not available. T: Not available. |
| vPvB | : Not available. |
| | vP: Not available. vB: Not available. |
| 12.6 Other adverse effects | : No known significant effects or critical hazards. |

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

| <u>Product</u> | |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Glass products with MSVD coatings and silver containing dusts generated during grinding removal of the MSVD coating may be recycled. The disposal requirements for waste dust should be based upon testing conducted in accordance with federal, provincial, state, and local requirements. |
| | |

Hazardous waste : Yes.

| Waste code | | Waste designation |
|---------------------|-----------------|---|
| 10 11 00 | wastes from mar | nufacture of glass and glass products |
| Packaging | I | |
| Methods of disposal | packaging s | tion of waste should be avoided or minimised wherever possible. Waste should be recycled. Incineration or landfill should only be considered ing is not feasible. |
| Type of packaging | | European waste catalogue (EWC) |
| Container | 15 01 01 | paper and cardboard packaging |
| Special precautions | | al and its container must be disposed of in a safe way. Empty containers y retain some product residues. Avoid dispersal of spilt material and |

runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

| | ADR/RID | IMDG | IATA | |
